

Mr Chintan Shah

He is GM, Senergy Global, New Delhi. Prior to this he was with Suzlon Energy Limited; India's largest WEG manufacturing company and was responsible for planning and execution of projects there. Besides, he played a pivotal role in the company, in creating policy, institutional level enabling mechanism and regulatory framework for commercialization and market expansion of wind energy. In his earlier stint at The Energy and Resources Institute (TERI), New Delhi, he had developed extensive know how for renewable energy technologies. He was also the leading member of the core team working in area of climate change during the early days of Kyoto.
